

Meeting Location and Time: 7:00 Wednesday (February 27th, 2019) at **The DeHoff Building** — 821 S. Main St. N. Canton, Ohio 44720— Regular meeting bring magic—dinner at Varieties before meeting at 5:00.

The Minutes—Inside The Meeting

Well how is the weather where you are? If your in Ohio you are probably pretty tried of the cold and snow. In fact, if you didn't know, the regular January meeting was postponed until the first Wednesday in February due to below zero wind chill factors. But it won't be long until spring and in the mean time, the Canton Magicrafters have some things that will warm you up.. Let's start with the magic auction on Saturday February 16th. This is going to be another big one and a major fund raiser for the club. Although you will be receiving this newsletter after the auction, I think we can plan on it being

another success. Thanks to Larry McMechan for cancelling his trip to Hawaii to be with us at the auction. More on this subject in the March newsletter. We have been discussing the 2019 banquet already this year and are considering a child's ticket for about \$15 instead of the usual \$25. we are hoping to draw more people to our banquet and make it a little more family friendly. We would sill make about the same amount of money. It looks like we are going to have another great Battle of Magicians this year. Jeff Conley has put together another great line up and another great time. Don't forget to

register for the battle with Jeff and get your \$10 club discount. Also our friend Mark Miller will once again be a the battle selling some of the newest magic effects on the market. If you know what you want, please get a hold of Mark and he can bring it to the battle and save you on that shipping charge. And we're finally making changes to our web page. All suggestions and comments will be welcome.

For The Good Of The Club

We have two great lectures planned already this year. In May we are planning on having our friend Tim Wright present his lecture. Tim is a very funny man and I'm sure that his lecture will be one that you'll not want to miss. Also in September we will be hosting a lec-

ture by the legendry English magician, Mr. John Carney. John does some very good card effects and lot of them are self working. It's one that I don't want to miss. We also will be planning a trip to the Cleveland ring's magic auction later on this year. This is always a

fun time. Why not plan to come along. Many thanks to all of the members who took time out of their schedule to help out at this year's auction. It was greatly appreciated. Also I hear that Dan Weaver will once again be at the battle taking pictures for our club website.

Special points of interest:

- Get ready for another auction
- We are making changes to our web page
- Lots of fun stuff coming up
- New lectures for 2019

Now it's time for my favorite part of the newsletter, card tricks. Last month Ron Barnett performed the trick by Dai Vernon simply called the trick that can't be explained. Because it can't. Oh there's a mathematical formula behind this trick that would fill a blackboard and you would have to be Albert Einstein to understand it. But this got me thinking about other card tricks that can't be ex-

The Card Korner

plained. If you are a fan of self working card tricks, like I am, then you can learn quite a few of these kinds of trick. For instance, card tricks that use Ed Marlo's card displacement theory or other mathematical card tricks. These card tricks might not be the most intense card tricks for you or the spectator, but they are the most interesting. So for those of you who don't like long boring counting or spelling card

tricks, then these are not for you. But if you enjoy interesting tricks that make you think "how did that just happen:", then I suggest that you look into card tricks that just work and nobody knows why. Maybe you'll figure them out some day.

From the Secretary's Desk

"I am really looking forward to 2019 with the Canton Magicians."

I am really looking forward to 2019 with the Canton Magicians. We already have two very good lectures lined up for this year and an upcoming magic auction. And don't forget about the field trips including a trip

to abbotts magic shop in Colon Michigan, the Cleveland magic auction, the two day magic auction in Eaton Ohio, and the International Battle of Magicians magic convention to name a few. And let's not forget about our

November banquet. It should be a fun filled and exciting 2019 for the Canton Magicians. I hope you will enjoy and come along for the ride. You'll not be sorry.

Magic at the last meeting!

The magic for the evening was started off by **Randy Weidenhamer** who performed a mathematical based card trick in which he was able to find all 4 aces from a cut deck. Nobody knows why, it just worked. **Drew Hutchinson** showed how he made money for college by working at McDon-

alds as he magical made some hamburgers and fries appear. **Brent Schneider** was able to push a pencil through a cap on a bottle and **Jason burns** used a form of muscle reading to find the chosen card. **Mike Salvino** performed the fantasy knot from Tarbell #1 as he pulled the silks through one another. And **Jeff Conley** used

some RFID cards(?) to magically cause the chosen card to appear on a picture from a cell phone. All in all it was a great night for magic. Let's plan on doing it again next month.

when we
had the an-
nual picnic**

Canton Magicrafters

Canton Ohio

I.B.M. Ring # 243

The Canton Magicrafters were organized on April 17, 1920 (before IBM) by a group of 20 magicians from Canton Ohio to further the art of magic and the allied arts in Canton Ohio and the surrounding area. The club disbanded and was later reformed in 1960. The first new meeting hosted 10 magicians. The Canton Magicrafters, as we are called now, quickly grew to 26 members and became a chartered I.B.M. Ring, # 243, on April 15, 1977. We now boast a membership of more than 30 magicians of all ages, styles, abilities, and skill levels from all over Stark County and beyond. Monthly meeting, banquets and shows, auctions, picnics, club library, road trips, lectures, and much more are just a few of the things the Canton Magicrafters have to offer their members. The Canton Magicrafters have a proud history of serving the magic community in Stark County for many years, and we hope to continue for many more.
